

Innovative DeFi on Binance Smart  
Chain

Upto 15% daily return and 20%  
referral bonus

Fully Verified and Audited Contract

WhitePaper 2.0

---

## **What is the price of fish?**

Fish do not have a set price.

Higher TVL more Fish per BNB, Lower TVL less Fish.

This creates level playing field so no user can be late.

There is NO calculator available to work this out.

## **What will my daily percentage be?**

Daily percentage is up to 15%

This depends on eating habits, the time of day you re-roast or deposit and TVL fluctuation.

Average daily return is 7-15%

## **Why are my rewards not growing?**

Eating habits effect rewards, you eat too much your daily percentage drops.

If you only started with a small deposit it will take time to display on the dApp.

Only goes to 3 decimal places. TVL daily increase can cause lower daily percentage

---

## **What happens if i always eat?**

If you always eat your daily percentage will drop dramatically and will not receive the highest daily returns.

This is the anti-whale mechanism that preventing a whale draining the TVL

## **Is re-roasting more often better, 2 or 3 times a day?**

Re-roasting is the same as compounding. so essentially yes.

You will need to pay standard BSC gas fees for every re-Roast.

## **What are ' Fish'?**

Fish are the miners that are hired with BNB and work to get your rewards.

This is just a term we decided to use.

Crypto OGs will know ' Fish' as BNB

---

## **Can I get my initial back?**

Roast Fish Miner is a locked rewards pool, so no.

You get your initial back over time through the my rewards section of the dApp

## **How come my referrals aren't showing | Where are they?**

Your referrals show up in the 'My Rewards' Section of the miner dApp. Referrals are 20% of the deposit. 1 BNB deposit equals 0.20 BNB

## **What are the fees?**

There is 5% dev fee taken upon ALL deposits and withdraw from Roast Fish Miner.

Standard BSC network gas fees are required for EVERY transaction made deposits, withdraws and re-roast! Common issue when re-roasting is no gas fees!

---

## **Do Fish amount decrease when you eat?**

No, the 'Fish' amount will not change. If you make a new deposit or re-roast the amount will increase but not when you eat (take rewards).

The 'Fish' are less efficient over time if you eat too much

## **Is this sustainable?**

Yes, as long as there is TVL in the contract then there will always be rewards.

The hungry people who eat too much get punished and get lower and lower rewards.

It will last a long time the higher the TVL is

## **What is the best strategy?**

We recommend the tried and tested method as in it is written in the contract.

Re-roast 6 days and eat 1 day a week. It will compound your investment and receive your initial back in 2-4 weeks

---

## **The 6/1 Strategy explained?**

It is 6 days not 6 re-roast.

In those 6 days yes you can re-roast as many times desired.

It is just compounding faster.

## **Is it too late to invest?**

No, the contract is written to provide an optimal entry for any and all users, new or old.

This is the reason the fish per BNB amount changes frequently with TVL fluctuation to provide an even playing field for any new user coming to Roast Fish and not giving the first user/s a headstart

## **Can contract functions be added?**

No, the contract is immutable and cannot be changed. The contract works perfectly well as it is. No wallets can be blacklisted, no forcing people to re-roast 6 days and eat 1 day a week. Nothing can be changed

---

## **Does it have an anti whale mechanism?**

The contract has an in-built anti-whale mechanism. This works as follows; User 1 re-roast 6:1 gets highest daily percentage in that 24 hour period. User 2 does 5:2 gets a lower percentage. User 3 does 4:3 gets lower percentage again. This happens all the way until the user who eats continually rewards will drop to 0.5% per 24 hour period. This is to prevent 1 user draining the TVL, creating sustainability

## **What is the minimum deposit?**

0.01 bnb minimum deposit requirements.

If there are rewards in the "My Rewards" section and you make a new deposit both the new deposit and rewards are transferred into Fish

## **What is minimum re-roast?**

There is no minimum re-roast requirements.

You will always be charged standard BSC BEP20 gas fees for every interaction with the contract

---

## **What's the roadmap long term?**

Roast Fish aims to become the largest Dapp on Finance Smart Chain.

Roast Fish will integrate with large swaps such as Pancakeswap in the near future. Roast Fish will have a plan for releasing token and airdrop to all early investors of Roast Fish Miner.

### **\*\*DISCLAIMER\*\***

We DO NOT guarantee 15% a day it is up to 15%.

Roast Fish Miner is illegal in certain countries please consider this when investing. Do not invest more than you can afford to lose.
